JACARANDA MANOR

SERVING YOU FROM OUR HEART

Grace 
HEALTHCARE *Supported Facility*

welcome to our facility

Jacaranda Manor is a licensed 291-bed skilled nursing and rehabilitation facility that has served as a leader in Pinellas County for over 20 years offering specialized psychiatric care for residents with behavioral disorders and mental illness, as well as Alzheimer's and other related dementias. Our center includes a Secured Behavioral Support Unit for mental health services requiring extra care, and features an interactive Multi-Sensory Room specially designed to provide gentle stimulation of sight, sound, touch, smell, and movement in a controlled way to create a soothing environment. Services available also include short-term rehabilitation, certified wound care, long-term care, comfort care, and respite stays, all in a home-like setting where safety and smiles are an important part of each care plan.

We accept Medicare, Medicaid, certain insurances, and private pay.

behavioral support

Jacaranda Manor's team and designated psychiatric staff are committed to providing specialized mental, emotional and behavioral care to individuals who suffer from major mental illness, traumatic brain injury, cognitive impairment, Alzheimer's, dementia, and others who require or would benefit additionally from a Secured Behavioral Support Unit environment. Complementary therapies and non-pharmacological interventions are encouraged in our center to promote extended comfort and individualized activities, including the use of our interactive Multi-Sensory Room.

skilled nursing

Our skilled nursing services are oriented around provision of specialized care for recovery after hospitalization. Our dedicated team helps residents and family members feel at home while receiving individually-focused healthcare. From nursing care and nutritional support for recovery, to the activities of daily living, we focus on an innovative, comprehensive interdisciplinary approach. Our services include diabetes management, ostomy care, IV management, enteral nutrition, post-surgical care, and certified wound care.

rehabilitation

Whether recovering from a stroke, fall, or any other health condition that would benefit from rehabilitation, our therapy department provides a variety of services for our community. Working to gain a clear understanding of personal goals, we are committed to returning our residents to the highest possible level of function and independence. Utilizing state-of-the-art programming, our team has the education and experience to help residents meet goals through physical, occupational and speech services.

respite

Our team manages a respite program that provides caregivers time-off from caring for a loved one at home. In the event that care is needed for a long weekend or for a few weeks, family members can feel secure knowing their loved one is provided with a safe, home-like healthcare setting where both short- and long-term residents receive clinical monitoring by an educated, skilled staff whose goal is to meet needs quickly.

health & wellness

We embrace the concept of socialization for every resident and believe the healing process and long-term health stability relies on Whole Person Care. From live music events, candlelight dinners and beauty shop visits, to music therapy, community field trips and Resident Council meetings, our staff supplements wellness by delivering opportunities for residents to maintain a fulfilled and pleasurable stay. From one-on-one interaction to group participation, our energetic team strives to utilize tailored activities to meet the individualized needs of our residents. Our compassion is expressed both by how care is delivered by our staff, and how we organize and operate our building and programs.

comfort care

Our comfort care program, which includes both palliative and hospice care, provides for individual resident wishes. Our goal is to comfort the resident and help them transition through this phase in their life. Our facility's nursing team also offers support to the families and loved ones of a resident going through a Graceful End of Life Transition. It is our staff's intention to be mindful of when visitors are present and to anticipate their needs.

about our support partners

Grace Healthcare Support Services is a privately owned organization that supports skilled nursing, assisted living and rehabilitation facilities across the United States. It is our goal that you or your loved one will receive quality, compassionate care by well-trained professionals whose goal is *serving you from the heart*. Our facility care partners provide each resident the opportunity to achieve their greatest potential and also endeavor to provide peace of mind to families. Our company's philosophy of Graceful Living encourages facility teams to go above and beyond in creating warm, caring environments. This common goal drives us to develop new programs and initiatives that support continuous improvement in care.
